

AMENDMENT UNDER 37 C.F.R. § 1.111  
U.S. APPLN. NO. 09/408,264  
Q55802

**IN THE ABSTRACT OF DISCLOSURE:**

**The abstract is changed as follows:**

B<sup>1D</sup>  
In a full power state, data packet are transferred at full power from a transmitter to a receiver, whereas in a low power state data packet s are transferred at low power from the transmitter to the receive. To transit fast from the low power state to the full power state, the transmitter interrupts transmission of the currently transmitted low power data symbol and transmits a copy of the currently transmitted low power symbol at full power to the receiver.
